## PROJECT EXPERIENCE

### ChooseFI Kansas City — JavaScript, HTML, CSS

I created a mock website for a personal finance group in order to practice self-taught coding skills. I used my basic knowledge of HTML, CSS along with JavaScript that I was learning through an online tutorial. Additional functionality was included as I learned about resources such as Google fonts API, Jquery, Bootstrap, and Ajax.

## WORK EXPERIENCE

### Quality Data Coordinator/Assessor, Beacon Health Options, Atlanta, GA, 2015

- Completed onsite utilization management and quality assurance reviews of community mental health centers statewide.
- Generated and compiled data regarding compliance with Medicaid, State of Georgia, and HIPAA regulations.
- Worked closely with the company data scientist to prepare data for the utilization reviews.
- Collaborated with various departments to provide support, training, and advocacy.

### Training and Audits Team Lead, APS Healthcare, Atlanta, GA, 2004 – 2015

- Supervised, trained, and collaborated with a team of clinicians to conduct utilization management and quality assurance reviews of community mental health centers.
- Worked closely with the software developer to create the tools used to complete reviews.
- Compiled and analyzed audit data from previous fiscal years regarding APS Healthcare's impact on provider performance.
- Completed quality assurance for monthly and quarterly reports.
